Subject: CyberTax TY2015-01: Tax Site Bundle Application Now Available

Tax Site Bundle Application Now Available!

TY 2014 was an exciting year for the Tax Site Bundles, and we want to congratulate you and hope that you will join us as we celebrate this huge accomplishment. In TY2014, 32 tax site bundle locations opened, resulting in 4,902 federal returns accepted, 4,349 state returns accepted, and more than \$4.9M in refunds returned to taxpayers. Knowing that we continue to make strides in multicultural markets and communities across the nation is such a joy and we thank you for all of your contributions and the contributions of all of the volunteers across the AARP Foundation Tax-Aide program.

To keep the momentum going, we are excited to launch the new [application](#) for the Tax Site Bundle initiative. We encourage all volunteers interested in starting a new tax site or expanding an existing tax site in a multicultural, multi-ethnic community to [apply](#) by or before November 15, 2015; however, we may make exceptions for late submissions if funding is available. To complete the application you will need the demographic information about the community where the proposed or expanded site is located, have an idea of who will serve as the Local Coordinator, and understand the type of resources you will need to be successful.

Our investment in your success includes three laptops, a printer, hot spot (if needed), customized intake sheets, a Tax-Aide marketing teardrop banner (English/Spanish available), and up to \$500 reimbursable expenses for marketing and promotion. [Apply](#) to participate in Tax-Aide's Tax Site Bundle Initiative today and get on the road to helping even more people in a community near you!
